

Pass the Carrot

Things You Will Need

A bag of carrots

How to Play

Have everyone form a circle. Place a carrot between the knees of the tallest person; he or she must pass the carrot to the knees of the person to the left, without using hands. This continues until the carrot has traveled around the circle. Then break off a piece of the carrot and send it around again. If a person drops the carrot, he or she is out of the game. The last person left is the winner. Give him or her a prize for winning.
